

**The Coalition on the Environment and Jewish Life  
of Southern California**

In recent years, over 200 million inkjet and toner cartridges were consumed in the U.S. alone. Over 75% of these were thrown away. Every person on this planet can do a better job of preserving our environment. ***One of the best ways to make a contribution is to recycle inkjet, toner, and fax and copier cartridges.*** Each year, cartridge recycling saves millions of pounds of plastic from landfills and millions of quarts of oil from being used to manufacture new cartridges.

### **HOW CAN YOU HELP?**

***CoeJISC can make recycling your inkjet, toner, and fax and copier cartridges really simple!***

★ We will provide your institution with all necessary equipment to recycle, including prepaid shipping, labels, envelopes, and cartons.

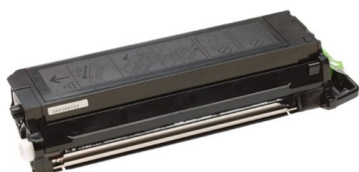

★ We will supply a tabletop display that dispenses leak-proof, plastic, postage paid envelopes for your members to take home with them.

★ For large inkjet returns, we also provide packaging that can be used to safely return used inkjets in quantities of up to 24 inkjets per container which can be kept at your facility for your own use.

★ The packaging allows for easy packing while protecting the integrity of each cartridge ensuring the safe arrival to the recycling center.

★ In addition to inkjet recycling, we also encourage the return of larger items such as empty toner cartridges. Return methods consist of a standardized toner collection box that can safely accommodate up to 8-12 cartridges at one time. This collection box can be placed at a visible location where community members can dispense of used toner cartridges.

**When your facility is running low on shipping materials, all you need to do is call CoeJISC and order more!**

***The mission of the Coalition on the Environment and Jewish Life of Southern California (CoeJISC) is to instill a commitment to environmental protection rooted in Jewish values.***
